After all, some of the most important events in the series take place around meals: becoming friends with Hermione after defeating the troll, Nearly Headless Nick's Deathday Party before hearing the Basilisk, and even meeting the Triwizard champions from the Goblet of Fire. Ever since I started this site, I've added food and drink recipes – which I call magical flavors – to help us bring magic into our everyday lives. These have ranged widely, and have inspired me to be more creative in my magical concoctions. Sometimes, they have curdled in the cauldron; others have turned out pretty great! While you may never cook as well as the House Elves or Molly Weasley, these Harry Potter cookbooks will help step your muggle kitchen skills up a notch or two. Ranging from classics to creative recipes and both official and unofficial versions, these cookbooks are both inspired by and pull recipes directly from the Wizarding World. As Dumbledore says, tuck in! 1. The Potterhead Cookbook 2. The Unofficial Harry Potter Cookbook The best feature of this Harry Potter cookbook is how it introduces the recipes. Each magical recipe is accompanied by a lovely reference that reminds readers of the book chapter and scene in which it appears. There's also a brief history about the origins of the dishes and how they got to the UK. You'll find more than 150 Harry Potter recipes in this cookbook. Enough dishes to organize a feast a la Hogwarts! 3. The Unofficial Harry Potter Complete Cookbook The Unofficial Harry Potter Complete Cookbook has the word "complete" for a reason in its name. The book contains a rich collection of more than 60 recipes inspired by the Wizarding World, including evening nibbles, desserts, sweet treats, and even Harry Potter cocktails. Keep this cookbook handy the next time you invite your muggle and wizard friends over dinner. After they taste your magical dishes, you'll surely be considered a master wizard chef! If you're a Potterhead who has little muggles in the family, then this is the perfect Harry Potter cookbook for you. The simple baking options found in The Unofficial Harry Potter Sweet Cookbook are excellent to introduce your little ones to the magical recipes of the Wizarding World. Also, most of the magical recipes can be cooked in under an hour from start to table. So you can prepare more than one dish in a day! If you only buy one of the Harry Potter cookbooks on this list, make it this one! Packed with over 40 baking recipes inspired by the Harry Potter universe, this is the only official Harry Potter cookbook. While the recipes are truly delicious, the highlights of this cookbook are the gorgeous images and the extra information about each dish. Most recipes include vegetarian, vegan, and gluten-free options as well as "Top Tips" to cook or prepare the recipe. The cookbook also includes "Magical Facts" or bits of information about the Harry Potter movies. With more than 200 recipes, The Unofficial Harry Potter Cookbook is perfect if you want to host a Hogwarts Start-of-Term Feast-themed dinner. Inside this cookbook, you'll find every single recipe of the Harry Potter series, including Dumbledore's famous rock cakes, plum cakes, treacle fudge, and pumpkin pasties! Have all your muggle and magical friends come over and feel like you're Hogwarts students from the comfort of your kitchen. Besides having a beautiful cover, the Unofficial Hogwarts Cookbook is arguably the most detailed Harry Potter cookbook out there. Each of the magical recipes featured in this cookbook has a clear explanation of the ingredients and measures to ensure muggles don't get confused when conjuring up the wizarding recipes. This cookbook also has a great variety of recipes that range from cocktails, desserts, sweet and savory treats, and more. If you have teenagers who are both Potterheads and foodies, this Harry Potter cookbook is an excellent way to get them started in conjuring up their own dishes. This cookbook also works wonders for college students (it's called the Harry Potter College Cookbook, after all) since most of the spellbinding recipes are dorm-friendly. Unlike many other HP cookbooks, this one has a beautiful hardcover version that gives the book a very professional look. This magical cookbook could be the perfect gift for your friend who's a huge fan (or, you know, yourself!). The book presentation is beautiful, and the creative recipes are organized by the seasons of the year. Some of the mouthwatering recipes are inspired by precise moments of the movies and books, like the train ride or the Yule Ball. To accompany the delicious dishes, the cookbook includes a few magical drinks you might want to try. Do you want a book that has both Harry Potter recipes and cocktails? Well, look no more! This Harry Potter cookbook joins two books in one. The first part of the cookbook is devoted to cocktail ideas, whereas the second part is for spellbinding dishes. With over 250 extraordinary and delicious recipes inspired by the magical world of Harry Potter, this cookbook will help you prepare all the dishes and drinks for your next wizarding dinner party. Yes, food is an extremely important part of the Wizarding World, but so are drinks! While most Potterheads are familiar with the delicious butterbeer, there are many more magical drinks you can conjure up! In this Harry Potter cocktail cookbook, you'll find 55 fun drinks/potions that will ensnare the senses, as professor Snape would say. If you want to entertain your muggle and wizard friends in the best Harry Potter style, this cocktail cookbook is your go-to option. While I continue working on my own Harry Potter cookbook, I'll be browsing these for sure! Have any questions about these Harry Potter cookbooks or the recipes inside? Let me know in the comments! Unfortunately, no matter how much you love the world's favorite wizard and his crew, watching the same movies over and over can eventually leave you wanting something more. Video games that focus on the world of Harry Potter might offer the perfect solution, but gaming costs can add up quickly if you aren't careful. Fortunately, several Harry Potter-themed online games are available to help you lose yourself in the magical wizarding world without spending a dime. Ready to immerse yourself in Harry's world? Let's take a look at some of the best free options. World of Potter World of Potter offers players a chance to live out their fantasies of going to school at Hogwarts. As a popular online RPG (role-playing game), it offers extra features like chat rooms to help you connect with other players as you level up by completing magic lessons to become a better wizard. It's free to sign up to play on either of two websites: one for Americans and one for Europeans. Photo Courtesy: World of Potter UK/Facebook The main page displays the number of active users and online users, so you can always see how many like-minded players are logged on and playing at any time. Creating a profile is free, but don't be too hasty. Coming up with the perfect first and last name for your RPG character deserves some serious consideration. You also get to decide during sign-up if you're a "Pureblood," "Half-blood" or "Muggle-born" wizard. Harry Potter Bloomsbury and Wizarding World Bloomsbury Publishing brought the Harry Potter books to life by bringing them to print, and now the publishing house offers fans several fun Harry Potter activities on its website to keep the magic alive. The options range from coloring sheets for young kids to entertaining quests like discovering your Harry Potter name or wizard best friend and facing off with trivia challenges. Photo Courtesy: WizardingWorld.com Expanding on these ideas, the publisher collaborated with the author, Scholastic, Audible and others to take the Wizarding World website – which focuses exclusively on all things Harry Potter – to a whole new level. Your answers in interactive quizzes allow the sorting hat to assign you to your destined Hogwarts house and determine your patronus and your wand. Harry Potter LEGO LEGO video games are extremely popular, so when you combine that appeal with the world of Harry Potter, the end result would have to be worth playing. Now, you can play for free by heading to Poki Kids – an online gaming site with a self-professed goal to "create the ultimate online playground" – and checking out the Harry Potter LEGO game. As you might imagine, the game is all about building different buildings and structures from Harry's world, including the infamous tower in Azkaban and Professor Lupin's classroom. Photo Courtesy: Poki Kids Harry Potter Games The HarryPotter-Games.net website comes loaded with several different Potter-themed games and activities to entertain the entire family. Whether you want to play Quidditch, fight the Death Eaters or play Dress Up, you can find the perfect option, completely free of charge. You can even put makeup on Emma Watson and watch her totally transform. If potion-making and a bit of deception are your thing, check out the Polyjuice for Harry Potter game, which lets you transform into anyone you choose. Just make sure you have the latest version of Adobe Flash Player, or these games won't work. Photo Courtesy: HarryPotter-Games.net Harry Potter: Hogwarts Mystery Harry Potter: Hogwarts Mystery is actually a phone app and not a computer game, so you won't be able to play this online game unless you have a phone or tablet capable of running the app. Once you connect to Wi-Fi and access the game, you can launch an unbelievable adventure on the grounds of Hogwarts. You get to meet the famous Professors Dumbledore and Snape, plus participate in duels. Make sure you go to class to learn spells, build relationships with other students and keep up with the latest. Hogwarts Mystery is free to play, but you can make in-game purchases to enhance your game play if you want. Photo Courtesy: @HogwartsMystery/Twitter MORE FROM QUESTIONSANSWERED.NET
